Take advantage of starting early

Why start today?

No matter your age – starting as soon as you can – will give you the benefit of time.

- Elaine started saving for retirement at age 25.
- Mike waited until he was 30 to start.

This example is hypothetical and does not represent the returns from any specific investment. Assumes a starting salary of \$50,000 and 10% contribution rate from respective starting ages to age 60, with 5% average annual return, biweekly contributions and a 4% annual pay increase. Fees and charges, if applicable, are not reflected in this example and would reduce the amount shown. Investing involves risk including the possible loss of principal. Income taxes are payable upon withdrawal.
