Additionally when applicable, Transamerica charges hourly fees for administrative consulting, compliance consulting, and plan termination processing.

**Administrative Fee - Per Account**

A general administrative fee for ongoing annual plan administrative services (e.g., legal, accounting, auditing, recordkeeping) may be deducted as a fixed dollar amount from your account. The actual amount deducted from your account, as well as a description of the services to which the fees relate, will be reported on your quarterly benefit statements.

**Administrative Fee - Pro Rata**

A general administrative fee for ongoing annual plan administrative services (e.g., legal, accounting, auditing, recordkeeping) may be deducted as a percentage of assets from some or all investment options held in your account, unless paid by other sources. The actual amounts deducted from your account, as well as a description of the services to which the fees relate will be reported on your quarterly benefit statements.

**Administrative Fee - Contribution Based**

An administrative fee for general plan recordkeeping services **may be deducted** from individual participant contributions deposited into the Stable Fund. This fee is deducted as a percentage of the contributions. The actual amount deducted from your account, as well as a description of the services to which the fee relates, will be reported on your quarterly benefit statement.

**Plan Service Credit**

A Plan Service Credit represents an expense refund for one or more of the investment funds offered by your plan. **Investment Information**

This information is provided to help you compare the investment options under your plan. You may obtain, free of charge, a paper copy of your fee disclosure notice and other investment information posted at **transamerica.com/portal**, by contacting Transamerica at **800-755-5801** or by writing to Transamerica Retirement Solutions, 6400 C Street SW, Mail Drop 0001, Cedar Rapids, IA 52499, Attention: Fee Disclosure. The information available includes each investment option's issuer, objectives, goals, principal strategies, principal risks, holdings, turnover rate, value and updated performance and expense information; as well as a glossary of terms, information about calculating benefits, available distribution options and (where appropriate) prospectuses and annual reports.

The following table focuses on investment options that have variable rates of return, and shows fee and expense information, as well as investment performance for each investment option and that of the appropriate benchmark, or index. If your plan offers balanced, asset allocation or target retirement funds, which are comprised of a mix of stock and bond investments, you will see two broad-based benchmarks, a stock index, and a bond index. Because they are made through a retirement plan, your investments in these funds are not subject to front-end or back-end loads, which are a form of sales commission charged at the time of purchase or sale.

The investment performance of each investment option is shown net of (or after) fees, while the benchmark or index investment performance is reported on a gross (before fees) basis. If the option has less than a 10-year history, the investment performance of both the investment option and the index are shown since inception, with the inception date shown after the investment option name. Returns of less than one year are not annualized.

Total Annual Operating Expenses of an investment option are the expenses you pay each year, which reduce the rate of return you earn. In some cases, a fund may waive or reimburse certain expenses. If a fund has waived expenses in the past year, you will see a different gross (G) (before waivers) and net (N) (after waivers) expense ratio. It is the net rate that is paid by an investor in the fund because of the waivers. Fund specific operating expense details are available at **transamerica.com/portal**.

Shareholder-type fees, if any, are in addition to Total Annual Operating Expenses. Fees and expenses are only one of many factors to consider when you decide to invest in an investment option.

- The performance data quoted represents past performance. Past performance does not guarantee how the investment option will perform in the future. Your investment in these options will fluctuate and you could lose money. Current performance may be lower or higher than the performance data quoted.
- The cumulative effect of fees and expenses can substantially reduce the growth of your retirement savings. Visit the Department of Labor's website for information on understanding your retirement plan fees at <https://www.dol.gov/agencies/ebsa/about-ebsa/our-activities/resource-center/publications/understanding-your-retirement-plan-fees>.
