

## 1. INTRODUCTION

VALIC Financial Advisors, Inc. ("VFA") is registered with the Securities and Exchange Commission as both a broker-dealer and an investment adviser and is a member of the Financial Industry Regulatory Authority and the Securities Investor Protection Corporation. VFA is a wholly-owned subsidiary of The Variable Annuity Life Insurance Company ("VALIC"). VFA and VALIC, together with additional AIG companies, are commonly referred to as and compose AIG Retirement Services, our brand name. VFA financial professionals are employees of VALIC. Our VFA financial professionals provide various services, including enrollment, education, plan-related services and customer service, for retirement plans and accounts and, where offered, for health reimbursement arrangements ("HRAs"). Additionally, our financial professionals provide retail brokerage recommendations, including recommendations for mutual funds, variable annuity and life insurance products, as well as investment advisory services.

Brokerage and investment advisory services and fees differ, and it is important for you to understand these differences. Free and simple tools are available to research firms and financial professionals at [www.Investor.gov/CRS](http://www.Investor.gov/CRS), which also provides educational materials about broker-dealers, investment advisers, and investing.

## 2. WHAT INVESTMENT SERVICES AND ADVICE CAN YOU PROVIDE ME?

If you are a participant in a retirement plan, the specific services available to you are subject to requirements or limitations imposed by your plan sponsor.

Your financial professional may offer you brokerage products, investment advisory services or both. When VFA offers products such as mutual funds, 529 Plan accounts and variable annuity and life products, the firm acts as a broker-dealer. When VFA offers advisory services such as providing investment advice, the firm acts as an investment advisor.

### Brokerage Services

We buy and sell securities on behalf of our clients who may receive recommendations with respect to the products we offer, including mutual funds, 529 Plan accounts and variable annuity and variable life products. General securities such as stocks, bonds, exchange traded funds ("ETFs") and additional fixed income alternatives are available solely at your request or direction, **except as described in the VFA Broker-Dealer Brochure [www.valic.com/VFABrokerDealerBrochure](http://www.valic.com/VFABrokerDealerBrochure)**.

We offer annuity products including those issued by VALIC and other affiliated insurance companies of VFA. In addition, if you are a plan participant, the product or investment platform generally will be one that is (i) made available to the plan by VALIC or VALIC Retirement Services Company ("VRSCO"), and (ii) selected or authorized by your plan sponsor.

When we provide brokerage services, we do not have discretionary authority to make trades or take any other action on your behalf. You make the ultimate decision regarding the purchase or sale of investments. In addition, we do not commit to monitoring your investments in your brokerage account at any time.

When we provide a **financial plan**, it is a one-time recommendation, in connection with one or more products (or product types) available from the firm. The **financial plan** will identify the capacity in which it is provided.

We do not require a minimum investment amount to open or maintain a mutual fund brokerage account. In addition, certain securities, including annuities and mutual funds issued by our affiliates and unaffiliated mutual funds, require a minimum investment amount. Please see the applicable prospectus and [www.valic.com/brokeragefees](http://www.valic.com/brokeragefees) for more detail.

### Investment Advisory Services

We provide wrap fee programs to retail investors and options are available for both retirement plan participants and retail clients. For retirement plan participants, we also provide a non-discretionary advice program. In addition to these programs, when we provide a **financial plan**, it is a one-time recommendation, which may be in connection with a recommended advisory program. The financial plan will identify the capacity in which it is provided. Along with such **financial plan**, we may provide one or more reports of an educational nature; such educational reports generally are not intended to constitute a **financial plan** or investment advice. We also may act as solicitor or advisor for a third party's investment advisory service, and receive compensation for that service.

As a part of our investment advisory services under our wrap fee programs, VFA generally has discretionary authority to make trades and take certain other actions on your behalf, and monitors your investments within the advisory account on an on-going basis. The fee you pay to VFA includes this monitoring service.

**Please visit [www.valic.com/prospectus-and-reports/vfa-form-adv-materials](http://www.valic.com/prospectus-and-reports/vfa-form-adv-materials) for our various brochures that provide more detailed information on our investment services.**

- For our financial planning services, you should review the Advisory Business and Types of Clients sections in our Firm Brochure.
- For more information on our wrap fee programs and our non-discretionary advice program, you should review the applicable Wrap Fee Brochure, including the Services, Fees and Compensation and Account Requirements and Types sections.

If we provide investment advisory services to you, you will enter into an investment advisory agreement, and we will provide you with a copy of our Form ADV.

---

## Conversation Starters. Ask your financial professional:

- Given my financial situation:
  - Should I choose an investment advisory service? Why or why not?
  - Should I choose a brokerage service? Why or why not?
  - Should I choose both types of services? Why or why not?
- How will you choose investments to recommend to me?
- What is your relevant experience, including your licenses, education and other qualifications? What do these qualifications mean?

---

### 3. WHAT FEES WILL I PAY?

For employer-sponsored retirement plan services, which generally include brokerage services and also may include advisory services, product fees will be described in the product documents, which can include a contract and/or prospectus, and may include asset-based fees and/or fees of fixed amounts. Plan fees, which are in addition to product fees, may be:

- paid by the plan sponsor, and/or
- assessed to participant accounts either by the plan sponsor and/or a record keeper or other service provider selected by the plan sponsor, and generally will be reflected as withdrawals from your plan account.

#### Brokerage Fees

For **brokerage services**, depending on the type of securities you purchase, you will pay transaction-based fees on every purchase and sale of most securities in your brokerage account including mutual funds, stocks, bonds and ETFs. These transaction-based fees are usually charged as a separate commission. **Please see the fund prospectus or the brokerage fees at [www.valic.com/brokeragefees](http://www.valic.com/brokeragefees) for information regarding your investment.**

You will not be charged any fees for our financial planning services.

Depending on the type of investment you select, there may be conflicts of interest between you and the firm and its advisor. Please see [www.valic.com/VFABrokerDealerBrochure](http://www.valic.com/VFABrokerDealerBrochure) for information regarding your investment.

If you purchase an annuity contract, the fees will be described in the applicable contract and prospectus, including additional fees for any optional benefits you may have selected.

***You will pay fees and costs whether you make or lose money on your investments. Fees and costs will reduce any amount of money you make on your investment over time. Please make sure you understand the fees and costs you are paying.***

#### Investment Advisory Fees

For **investment advisory** services available through our wrap fee programs, the fees you pay depend on the wrap fee program selected, and may be different for advisory services associated with an employer-sponsored retirement plan. You will pay an asset based advisory fee that covers the provision of initial and ongoing investment services, the execution of securities within your wrap fee program account, and fees to a broker-dealer that has custody of your assets. Therefore, this fee may be higher than a typical asset-based advisory fee.

You will not be charged any fees for our non-discretionary advice program or our financial planning services.

**For specific information on the fees associated with the investment advisory services you have selected, please consult the applicable brochure(s) available at [www.valic.com/prospectus-and-reports/vfa-form-adv-materials](http://www.valic.com/prospectus-and-reports/vfa-form-adv-materials)**

---

**Conversation Starters.** Ask your financial professional:

- Help me understand how these fees and costs might affect my investments. If I give you \$10,000 to invest, how much will go to fees and costs, and how much will be invested for me?

---

**4. WHAT ARE YOUR LEGAL OBLIGATIONS TO ME WHEN PROVIDING RECOMMENDATIONS AS MY BROKER-DEALER OR WHEN ACTING AS MY INVESTMENT ADVISER?  
HOW ELSE DOES YOUR FIRM MAKE MONEY, AND WHAT CONFLICTS OF INTEREST DO YOU HAVE?**

*When we provide you with a recommendation as your broker-dealer or act as your investment adviser, we have to act in your best interest and not put our interest ahead of yours. At the same time, the way we make money creates some conflicts with your interests. You should understand and ask us about these conflicts because they can affect the recommendations and investment advice we provide you.*

Here are some examples to help you understand what this means:

- We offer annuities issued by our affiliates on our brokerage platform. This can result in increased revenue for those affiliates.
- We and our financial professionals will receive different compensation, and different forms of compensation, e.g. asset based, commissions or other, for different brokerage or investment advisory products and services.
- The compensation received by our financial professionals count toward their qualification for non-cash awards, including educational and training conferences and other benefits offered by VFA or an affiliated company.
- VFA and its affiliates will receive voluntary payments from fund sponsors that choose to participate in, and that are designed to defray the costs associated with, VFA- or affiliate-sponsored conferences or other educational events that are attended by our employees or employees of our affiliates.

---

**Conversation Starter.** Ask your financial professional:

- How might your conflicts of interest affect me, and how will you address them?

For additional information related to our conflicts of interest, please review our brochures available at [www.valic.com/prospectus-and-reports/vfa-form-adv-materials](http://www.valic.com/prospectus-and-reports/vfa-form-adv-materials) and [www.valic.com/VFABrokerDealerBrochure](http://www.valic.com/VFABrokerDealerBrochure).

---

**5. HOW DO YOUR FINANCIAL PROFESSIONALS MAKE MONEY?**

Compensation for services within a plan can vary materially from the above. VALIC financial professionals' compensation can vary depending on whether your plan offers an annuity or mutual fund investment platform, and may change over time. Compensation paid by VALIC for work on a retirement plan may have one or more of the following components:

- Fixed and incentive compensation;
- Compensation for payroll deduction and asset transfers (may include commissions, if the plan is funded with an annuity); and/or,
- Service-based compensation for participants invested in an annuity, but no longer contributing to it.

If an investment advisory program is also available under the plan, compensation also can include a portion of the investment advisory fee; see investment advisory information in this Client Relationship Summary and in the VFA Form ADV.

---

## Brokerage - Compensation

For **brokerage** services, our financial professionals receive cash and non-cash compensation for the sale of securities and insurance products (including mutual funds and variable annuity and life products) based on factors such as the amount of client assets they service, the time and complexity required to meet a client's needs, the product sold, product sales commissions, and the revenue the firm earns from the financial professional's recommendations.

The mutual funds we offer have a varying range of compensation that is set by each mutual fund company. Therefore, the commissions earned by our financial professionals will differ based on the mutual fund(s) recommended and share class selected.

Annuity products differ in complexity and therefore may offer a varying range of compensation that is set by the insurance manufacturer. Therefore, commissions earned by our financial professionals will differ based on the annuity type recommended.

Certain types of securities are only made available upon request or direction from our client, and can involve no payment or different forms of payment than for a solicited sale or transaction. Please see the VFA Broker-Dealer Brochure for more detailed information.

## Investment Advisory - Compensation

For **investment advisory** services available through our wrap fee programs, our financial professionals generally will receive a portion of the Advisory Fee you pay on your program accounts, which is an ongoing fee for the services provided by VFA and your financial professional. This Advisory Fee is based on the client assets in your account, and VFA and our financial professionals will earn more compensation if you have more assets in your account.

Additionally, our financial professionals receive non-cash compensation for the amount of client assets invested in investment advisory services.

Our financial professionals are not compensated for our non-discretionary advice program or financial planning.

---

## 6. DO YOU OR YOUR FINANCIAL PROFESSIONALS HAVE LEGAL OR DISCIPLINARY HISTORY?

Yes. Visit [www.Investor.gov/CRS](http://www.Investor.gov/CRS) for a free and simple search tool to research us and our financial professionals.

---

### **Conversation Starter.** Ask your financial professional:

- As a financial professional, do you have any disciplinary history? For what type of conduct?

---

## 7. ADDITIONAL INFORMATION

You can find additional information about VFA and our services through the following resources:

- FINRA BrokerCheck ([brokercheck.finra.org](http://brokercheck.finra.org))
- Investment Adviser Public Disclosure ([www.adviserinfo.sec.gov](http://www.adviserinfo.sec.gov))
- Our website ([www.valic.com/CRS](http://www.valic.com/CRS))
- Prospectuses for the Annuity Products Available to Our Clients ([www.valic.com/prospectus-and-reports/annuities](http://www.valic.com/prospectus-and-reports/annuities))

If you have additional questions or would like information about obtaining a copy of this Client Relationship Summary, please visit our website at [www.valic.com/CRS](http://www.valic.com/CRS) or call us at 1-800-448-2542 or 1-800-248-2542 for the hearing impaired.

---

### **Conversation Starter.** Ask your financial professional:

- Who is my primary contact person? Is he or she a representative of an investment adviser or a broker-dealer? Who can I talk to if I have concerns about how this person is treating me?

VALIC Financial Advisors, Inc.

FIRM BROCHURE

Part 2A of Form ADV

2929 Allen Parkway, L7-20, Houston, Texas 77019

Telephone: (866) 544-4968

August 25, 2020

**This brochure provides information about the qualifications and business practices of VALIC Financial Advisors, Inc. (“VFA”). If you have any questions about the contents of this brochure, please contact us at 866-544-4968. The information in this brochure has not been approved or verified by the United States Securities and Exchange Commission or by any state securities authority.**

VFA is a registered investment adviser. Registration as an investment adviser does not imply a certain level of skill or training. **Additional information about VFA is also available on the SEC’s website at [www.adviserinfo.sec.gov](http://www.adviserinfo.sec.gov).**

Our brochure may be requested by contacting VFA at 866-544-4968 or it is also available free of charge on our website at [www.valic.com](http://www.valic.com).

## Item 2 – Material Changes

The following material changes have been made to VALIC Financial Advisors, Inc's. ("VFA" or the "Firm") Form ADV Part 2A since its last annual update on March 31, 2019:

- The Firm revised Items 4, 5, and 13 to update the information regarding financial planning services.
- The Firm updated Item 5 to note that, beginning March 30, 2020, there is no longer an annual fee for the use of the GPS Portfolio Advisor service. If you enrolled in the Portfolio Advisor Program prior to that date, you paid an annual fee of up to \$25.
- The Firm updated Item 7 to reflect limited advisory services for certain clients.
- The Firm updated Item 14 to note that the percentage of fees that the Firm pays to your IAR from the sale of advisory products is calculated on a rolling 52-week period, and not on an annual calendar basis. This change was designed to mitigate any incentive for an IAR to recommend products that might not be in the client's best interest. The Firm updated Item 14 – "Client Referrals and Other Compensation" to include disclosure regarding sponsorship activities undertaken by VALIC and the associated conflicts of interest.

We will provide you with a summary of any material changes to this and subsequent Firm Brochures within 120 days of VFA's fiscal year end, which is December 31st. In addition, if there is a material change to the disclosures in this Firm Brochure, we will provide the necessary updates. You may obtain copies of the Firm Brochure by calling 866-544-4968 or accessing our website at <https://www.valic.com/prospectus-and-reports/vfa-form-adv-materials>.

## Item 4 - Advisory Business

VALIC Financial Advisors, Inc. ("Firm" or "VFA") is registered with the Securities and Exchange Commission ("SEC") as an investment adviser. As an investment adviser, VFA provides to its clients the investment advisory products and services described in this brochure (the "Firm Brochure"). The Firm offers its investment advisory services through its investment adviser representatives ("IARs") located throughout the United States. The Firm is also registered with the SEC as a broker-dealer and is a member firm of the Financial Industry Regulatory Authority, Inc. ("FINRA"). As a broker-dealer, the Firm separately makes available securities such as stocks and bonds, mutual funds, exchange-traded funds ("ETFs"), variable annuity and variable life insurance products, and municipal securities. Broker-dealer services are not covered by this Firm Brochure and are not part of our advisory relationship with you. All IARs are also engaged in the Firm's brokerage business and are registered with the Firm as registered representatives.

VFA was incorporated in Texas in 1996 and is headquartered in Houston, Texas with additional branches throughout the United States. VFA is a wholly owned subsidiary of The Variable Annuity Life Insurance Company ("VALIC"), an indirect wholly owned subsidiary of AIG Life Holdings, Inc. and a wholly owned subsidiary of American International Group, Inc. ("AIG").

VFA offers managed account advisory services to clients in return for a fee through the Guided Portfolio Services ("GPS") Program, the Guided Portfolio Advantage ("GPA") Program, and the Managed Investment Program ("MIP"). Additionally, VFA offers a limited or nondiscretionary advice program under the Portfolio Adviser service of the GPS program which represents traditional, self-service online advice, and offers a limited additional advisory service outside of all of these programs as described in Item 7. VFA also provides certain retirement or financial planning services to clients or prospective clients as a one-time investment advisory service. While these programs are summarized below, a more complete description of these wrap fee programs is included in the Wrap Fee Program Brochure for the GPS Program and GPA Program and the MIP Wrap Fee Program Brochure. These brochures may be obtained free-of-charge by contacting VFA at (866) 544-4968 or visiting our website at <https://www.valic.com/prospectus-and-reports/vfa-form-adv-materials>.

As of December 31, 2019, VFA managed \$21.1 billion on a discretionary basis.

### **(1) MIP Program**

MIP is an asset management program offered by the Firm. The Firm has contracted with Envestnet Asset Management, Inc. ("Envestnet"), a provider of wealth management software and services to financial advisors and institutions, to provide the operational and system support for MIP.

The Firm has selected investment managers, or "Strategists," to provide services in MIP and that are responsible for the design and management of the MIP portfolio models. The Strategists include Envestnet Portfolio Solutions, Inc. ("Envestnet PMC"), Russell Investment Management, LLC ("Russell Investments") and CLS Investments, LLC. Envestnet PMC is an indirect, wholly owned subsidiary of Envestnet. The Strategists are responsible for the design and management of the asset allocation models for the MIP portfolios described below.

VFA, Envestnet and the Strategists are jointly responsible for the ongoing management of your MIP account. In connection with this arrangement, your IAR will provide assistance in determining your asset allocation and the selection of your MIP portfolio options. Your asset allocation will be based upon your responses within an investment profile questionnaire (the "Client Profile Questionnaire"), which includes factors such as risk tolerance, goals, investments objectives and time horizon. Your portfolio will be assigned an allocation ranging from Very Conservative to Very Aggressive with several allocations in between.

After completing the Client Profile Questionnaire, your IAR will help you complete an additional questionnaire designed to determine your investment focus, which may include traditional asset allocation, cost sensitivity, and socially and environmentally responsible investing, among others. Note that, if your IAR recommends the Selected Managed Investor Account Portfolio, as described in the MIP Wrap Fee Program Brochure, you will not complete the second questionnaire. Based on your responses in the second questionnaire, your IAR will recommend one or more MIP portfolios that best meet your needs based on the information you have provided. Your IAR will present the plan for your review and approval. As your needs change or market conditions warrant, we have the flexibility to revisit your investor profile to determine whether you are appropriately invested.

The MIP Program offers fifteen (15) different portfolios. Regardless of which portfolio you select, you retain flexibility to modify your portfolio model selection when your needs change or market conditions warrant.

*If you are interested in learning more about MIP, a complete description of the programs, services and fees are available in VFA's Form ADV Part 2A, Appendix 1 - MIP Wrap Fee Program Brochure, investment advisory agreement, and account opening documents. These documents are available upon request from your IAR or from VFA.*

### **(2) GPS Program – Retirement Plans**

VFA offers the GPS Program, which is an advice and asset management program offered to individuals in connection with their participation in certain employer-sponsored retirement plans. This advisory program is available to participants in retirement plan accounts where the plan service provider is either VALIC or VALIC Retirement Services Company ("VRSCO"), each an affiliate of VFA. Your retirement

account may be invested in a VALIC Portfolio Director (“PD”) variable annuity or in a mutual fund program through which VRSCO provides recordkeeping, compliance and administrative services to the plan and plan participants.

There are two services under the GPS Program that may be available in your retirement plan. The two services are:

- **GPS Portfolio Advisor**, which is a web-based program that enables you to obtain retirement income forecasts, contribution rate and retirement age recommendations, asset allocation models and investment advice through Morningstar Investment Management LLC (“Morningstar”), an independent financial expert. Once you have submitted the necessary inputs to the GPS Client Profile (defined below), you will receive a one-time recommendation for the allocation of your account value among the fixed and variable investment options in your VALIC variable annuity or among the mutual funds in your mutual fund retirement program account. It is then your decision whether to implement the investment advice in whole, in part, or not at all, as VFA provides non-discretionary investment advice only in this program and does not engage in any account management or monitoring of assets for this program. You are also solely responsible for reviewing and updating the information you input in the program with respect to the completeness, accuracy and timeliness of the information. You should review your retirement account(s) periodically to monitor changes in the market and the value of your investments and subsequent contributions because a failure to review and update account information through this program may materially affect the content and value of the service; and
- **GPS Portfolio Manager**, which is a program that combines the investment advice and recommendations through Morningstar described in the Portfolio Advisor program above with ongoing automated asset management services including automatic implementation of the investment advice, periodic portfolio rebalancing, automatically generated annual updates to advice and annual retirement income forecasts for your review, portfolio monitoring and special investment advice statements. Additionally, you may also receive personalized service from VFA IARs in person or by telephone. In this program you will be granting VFA discretionary investment authority over the account.

Consistent with the Department of Labor Advisory Opinion 2001-09A, also known as the SunAmerica Opinion, Morningstar is the “independent financial expert” to the GPS Program, and provides the advice methodologies that are used to produce investment recommendations to, or implemented on behalf of, participants in the GPS Program.

As part of your enrollment in the GPS Portfolio Manager Program, you will complete a GPS Client Profile (“GPS Client Profile”). The GPS Client Profile will help you to think about your retirement income goal and time horizon, as well as allow you to disclose your risk preferences and information about the assets, benefits, and retirement savings contributions that you intend to use to fund your retirement. The GPS Program uses this information to develop an Investment Policy Statement (“IPS”), which will include a portfolio assignment and will determine how your account(s) will be invested. There are seven portfolio assignments, ranging from Very Conservative to Very Aggressive. The asset classes and specific investment vehicles used in these portfolios depend on the investment vehicles available in the plan’s lineup, which is determined by the plan sponsor.

GPS Portfolio Manager applies asset allocations provided by Morningstar without modifications (although application of such asset allocations may be constrained by limitations imposed by one or more plan investment options), to manage your investments exclusively in accordance with the retirement objectives, resources, and Risk Preference Overlay questionnaire responses you indicated on your GPS Client Profile. The investment advice and recommendations you receive will be based solely on the information disclosed to VFA in your GPS Client Profile, and on the balances/allocations of assets you may have in your VALIC plans(s)/accounts(s). The advice delivered by the GPS Program will not consider any investment objectives, risk profiles/preferences beyond your Risk Preference Overlay questionnaire responses, or other information you may have provided or disclosed previously or in relation to other, separate products, securities, or services.

*If you are interested in learning more about the GPS Program, a complete description of the program, services and fees are available in VFA’s Form ADV Part 2A, Appendix 1 – Wrap Fee Program Brochure for the GPS Program and GPA Program, investment advisory agreement, and account opening documents. These documents are available upon request from your IAR or from VFA.*

### (3) GPA Program – Individual Variable Annuities

The Firm also offers the GPA Program, which is an asset management program offered exclusively to clients of VALIC who (1) purchased the VALIC Portfolio Director Advantage fixed and variable annuity contract (“PD Advantage”) or (2) purchase the VALIC Portfolio Director Freedom Advisor fixed and variable annuity contracts (“PD Freedom Advisor”). The PD Advantage and PD Freedom Advisor contracts are issued by VALIC, our parent company.

On January 29, 2018, existing PD Advantage contract owners who had not enrolled in the GPA Program were no longer permitted to enroll in the Program. Existing PD Advantage contract owners enrolled in the GPA Program may continue to make subsequent deposits into the contract under certain circumstances, which deposits will be managed under the program. The Firm offers the PD Freedom Advisor contract to individuals who desire to purchase an annuity and enroll in the GPA Program.

Before enrolling in the GPA Program, you must first complete a GPA Client Profile and Risk Tolerance Questionnaire (“GPA Client Profile”). The GPA Client Profile will help you to determine your risk tolerance and time horizon. This will help to determine an Asset Allocation Policy and portfolio assignment, which determines how your account will be invested.

Similar to the GPS Program, Morningstar is the independent financial expert to the GPA Program. In its role as independent investment manager, Morningstar uses a tactical asset management program that develops a set of well diversified model portfolios beginning with strategic asset allocations that are typically reviewed annually and updated if necessary. Then, as frequently as monthly, Morningstar analyzes the performance trends of all the asset classes included in their model portfolios and adjusts allocations to asset classes in order to take advantage of these trends. However, to keep the tactical asset allocation targets consistent with each model portfolio’s intended investment objectives, Morningstar does limit how much the tactical allocations are allowed to deviate from their corresponding strategic allocations. After establishing tactical asset allocation targets, Morningstar completes construction of the GPA model portfolios using a mix of investment options that allows them to hit their tactical asset allocation targets. When updates to the model portfolios are implemented, the investment allocations of accounts managed by GPA are reviewed and reallocated to the new targets as necessary.

*If you are interested in learning more about the GPA Program, a complete description of the program, services and fees are available in VFA’s Form ADV Part 2A, Appendix 1 – Wrap Fee Program Brochure for the GPS Program and GPA Program, investment advisory agreement, and account opening documents. These documents are available upon request from your IAR or from VFA.*

#### (4) Financial Planning

The Firm offers its individual advisory customers financial planning services. These services can involve preparing a financial plan or rendering a financial consultation which may encompass one or more of the following areas:

- An estimate of your net worth;
- Income and expenses analysis;
- Spending analysis;
- Cash reserves;
- Analysis of debt and debt ratios, including addressing consumer debt;
- A summary of your investments;
- Analysis of your risk frontier and exposure;
- Your retirement savings vehicles;
- Your pension and distribution options, and;
- Investing for retirement strategies.

As part of the financial planning process, your IAR will work with you to complete a client questionnaire, which requires information about your income, social security benefits, tax status, investment assets, other assets and savings, liabilities and current expenses, insurance policies, estate plans, tax information, risk tolerance and financial goals.

These services usually include a written financial plan and usually includes general recommendations for a course of activity or specific actions to be taken by the clients. For example, recommendations may be made that the clients begin or revise investment programs, obtain or revise insurance coverage, commence or alter retirement savings, or establish education or charitable giving programs. It should also be noted that your IAR refers clients to an accountant, attorney or other specialist, as necessary for non-advisory related services. The financial strategies presented in the financial plan are intended only as a guide, and implementation of the recommendations will be at the discretion of the client. The provision of financial planning services does not result in continuing obligations with respect to the information or conclusions presented in the report. **Any analysis of tax, financial, or accounting issues relating to your situation is for discussion purposes only and not intended to be tax or legal advice.** If you request that your IAR assist you with the implementation of the financial plan, the IAR may assist with the purchase or sale of certain products since the IAR is also a registered representative with the Firm. However, the products that your representative may offer are limited to those approved by the Firm.

Typically, the Firm delivers the report via hard copy or online within 30 days following the completion of all elements of the client questionnaire. Following delivery of the report, the IAR will attempt to meet with you to discuss the contents of the financial plan. VFA’s financial planning services utilizes the financial planning software provided by VALIC’s Acumen group (for Financial 360) and RetireUp (for Retirement Pathfinder).

## Item 5 - Fees and Compensation

### (1) MIP Program

*Fee: The fees you pay for your account(s) are based on a Program Fee as more fully described below. The Program Fee for your account covers the provision of initial and ongoing investment services and the execution of securities transactions. The Program Fee consists of the sum of:*

*Advisory Fee - This fee is the amount paid to VFA for advisory services; and*

*Platform Fee - This fee is for the other fixed and variable costs of your MIP portfolio as described further below. It is not negotiable and includes the fees and costs for services provided by, as applicable, VFA (overhead expenses and variable costs such as trading), Envestnet (administrative services), the Strategists (management fees), and NFS (custody fees) for your MIP Portfolio.*

*The Program Fee includes the fees and costs for services provided by your IAR, VFA, Envestnet, the Strategists, and National Financial Services LLC ("NFS"). There are certain fees that are not covered by the Program Fee, which are more fully described in the MIP Wrap Fee Program Brochure.*

*The Firm begins to charge the Program Fee once it approves your account on Envestnet's system, which typically occurs shortly after you complete your enrollment in the MIP Program and assets are received in your account to meet an initial minimum account balance. The Program Fee is a tiered fee that is calculated quarterly, in arrears, based on the average daily balance of your MIP account during the quarter and is deducted from your account shortly after the quarter-end. If your MIP account is managed for only a portion of a quarter, the Program Fee will be pro-rated accordingly based on the average daily balance during that portion of the quarter and the fee will be deducted before your account balance is distributed.*

*In calculating the applicable fees for the MIP Program, the Firm does not include the account values of your accounts, if any, held in the Firm's GPS Program and/or GPA Program. For a complete description of the Program Fee for each of the MIP portfolios and an explanation of its calculation, see the MIP Wrap Fee Program Brochure.*

*Compensation and Conflicts of Interest. A portion of the Advisory Fee collected by the Firm is shared with your IAR for introducing and servicing your advisory account. For account proposals generated on or after January 29, 2018, but before January 1, 2019, the Advisory Fee is a tiered fee based on the average daily balance in your MIP account during the quarter and may be up to 0.95% per annum based on the value of assets in the account. For account proposals established on or after January 1, 2019, the Advisory Fee is a tiered fee beginning at 0.90% for all MIP portfolios. For accounts established prior to January 29, 2018, the Advisory Fee will vary among MIP accounts based on the Program Fee on your account. **If you have an existing MIP account that compensates the IAR more than he receives under the agreement for a new account, and you seek to make an additional deposit or open a new MIP account, your IAR has a financial incentive to recommend that you deposit the additional funds into your existing account rather than open a new account.** We manage the potential for this conflict of interest by maintaining policies and procedures designed to ensure that IARs make recommendations that are in the best interest of the investor in the context of the products and services offered by the Firm. Specifically, all recommendations to transfer assets from one product to another are reviewed by our Supervision department, the members of which do not receive any variable product-based compensation. Additionally, the Firm maintains programs for the review of these policies and procedures via internal auditing procedures, other compliance related review and surveillance activities, and from time-to-time the Firm engages outside consultants to review, evaluate, and recommend changes to existing policies and procedures.*

*As a registered representative of the Firm, your IAR is paid for the sale of products and services, including sales commissions for annuities and mutual funds, and ongoing fees for certain securities and advisory products. For example, your IAR receives a portion of the Advisory Fee you pay on your MIP account, which is an ongoing fee for the services provided under the program. Your IAR's compensation will vary based on the products and services provided to you. Your IAR may have a financial incentive for you to transfer your assets to a product or service, such as MIP, that would increase the IAR's compensation over what s/he receives on an existing product or service.*

*Other Charges & Transaction Costs. Your investment in an MIP account is subject to certain other fees and charges imposed by third parties, as more fully described in the MIP Wrap Fee Program Brochure. In addition, mutual funds charge advisory, administrative and other fees and expenses, which shareholders bear on a pro rata basis. Mutual funds offer a variety of share classes, which differ according to the imposition of sales loads, and distribution costs commonly referred to as 12b-1 fees, and sub-transfer agency and shareholder services fees. Within MIP, mutual fund recommendations will be limited to classes of shares that are not subject to a front-end sales load or that qualify for a waiver of the load. VFA seeks to include in MIP portfolios share classes that are the least costly among those available to the program. Moreover, if a fund purchased within your MIP account pays to VFA a 12b-1 fee, a sub-transfer agency or a shareholder service fee, VFA will rebate those fees to your MIP account. However, if the share class available in MIP does charge such fees and they are retained by our clearing broker, NFS, then clients will not receive a rebate and their investment returns will be adversely impacted by payment of such fees. There is no guarantee that the Firm will offer within the MIP Program the lowest cost share class offered by the fund, even if included on the NFS Platform. For example, NFS may include a share class that charges no Rule 12b-1 fee or omnibus fees, subject to a surcharge in excess of NFS' standard transaction fees. VFA will not offer these share classes in the MIP Program.*

*For Portfolios that include ETFs, you should note that shares of an ETF trade on an exchange, and therefore, the value of such shares may differ from the value of the ETF's underlying investments. ETFs may trade at a market price which reflects a "premium" or a "discount" to the net asset value ("NAV") of their shares. If the market price is higher than the NAV, the ETF is said to be trading at a "premium". If the price is lower, it is trading at a "discount". Accordingly, ETFs may be purchased at prices that exceed the NAV of their underlying investments and may be sold at prices below such NAV. Under such circumstances the sale of ETF shares sold at a discount may not reflect the NAV of the underlying investments of those ETF shares. Moreover, there are costs associated with purchasing and selling an ETF, called a "bid-ask" spread (the difference between what a buyer is willing to pay (bid) for an ETF and the seller's offering (ask) price). These transaction costs (which do not apply to the purchase and sale of mutual funds) will adversely affect the performance of the MIP portfolios models that invest primarily in ETFs.*

*For more information about the fees associated with the MIP, see the MIP Wrap Fee Program Brochure, which is available upon request from your IAR or from VFA.*

## **(2) GPS Program**

While you are enrolled in the GPS Program, you pay the advisory fees as noted below, for the management of your account(s) and other fees and expenses of the product or platform in which you are invested. In calculating the applicable fees for the GPS Portfolio Manager Program, the Firm does not include the account values of your accounts, if any, held in the Firm's GPA Program and/or MIP Program.

Fees – GPS Portfolio Advisor Program: Beginning March 30, 2020, there is no longer an annual fee for the use of this service. If you enrolled in the GPS Portfolio Advisor Program prior to that date, you paid an annual fee of up to \$25 which was charged to your account following enrollment in the program and entitled you to use the service for one year. You may not obtain a refund or partial refund of this pre-paid fee. Following the one-year period, you will not automatically be re-enrolled in the GPS Portfolio Advisor Program and must actively re-enroll in the program if you would like to continue its services.

Fees – GPS Portfolio Manager Program: Participants in the GPS Portfolio Manager Program pay an advisory fee based on the account value at the quarter-end. If a participant has multiple accounts enrolled in the GPS Portfolio Manager Program, the quarter-end account values for all enrolled accounts are combined for determining the advisory fee. Accounts are aggregated for fee calculation purposes based on your social security number. The Firm does not combine the account values of your family members' accounts with your account value for the purpose of calculating your advisory fees. The Firm typically enters into a GPS plan services agreement with your employer that provides that the Firm may offer the GPS Program services to you and other plan participants. The advisory fee is typically a tiered fee that is up to 0.60% of the account value at quarter-end, which may be negotiated by the plan sponsor. This fee is not negotiable with plan participants. The rate applicable to your account is included in the Fee Schedule which accompanies your Advisory Agreement. For a complete description of the advisory fee for the GPS Program and an explanation of its calculation, see the Wrap Fee Program Brochure for the GPS Program and GPA Program.

Other Fees and Expenses. The VALIC PD variable annuity contract in which your retirement plan invests includes various fees and expenses including, but not limited to, separate account charges, account maintenance fees, surrender charges and the fees and expenses of the underlying mutual funds available in the contract. Certain of the underlying funds available in the PD variable annuity contract pay 12b-1 fees to VALIC. VALIC uses those fees to directly reduce the separate account charges applicable to the corresponding fund options in the contract. Separately, if your plan invests directly in mutual funds, you bear the fees and expenses of the mutual funds available in the program and plan-related fees and expenses, such as recordkeeping fees. If your plan sponsor has selected a mutual fund that charges a 12b-1 fee, VRSCO, as the plan service provider, reduces or offsets the recordkeeping fees you or your plan sponsor pay, or offsets other plan expenses. This amount is based on 12b-1 fees received or expected to be received by the Firm from the funds. An offset of fees to the plan can be direct, reducing the fee that is actually charged, or indirect, as a credit to your plan account which offsets some or all of the fees charged to the account. Please review the mutual funds' prospectuses for information about the fees and expenses of the mutual funds available within your plan and contact your retirement plan provider for information about recordkeeping/administrative services fees you pay as part of your retirement plan account.

Compensation to VFA and IARs. VFA receives the advisory fee as compensation for your participation in the GPS Portfolio Manager Program. VFA pays your IAR compensation which generally is calculated on a portion of these advisory fees. If you enroll in the GPS Portfolio Advisor Program, there is no annual fee and the IAR does not receive any compensation.

If you are enrolled in the GPS Program within a VALIC PD variable annuity contract or within a mutual fund platform, your VFA IAR typically will receive other compensation for services you receive in connection with your plan account(s), including commissions on deposits into your account(s), a combination of salary/fixed payments, and bonus/enrollment payments. This compensation is in addition to any advisory fees VFA generally pays to your IAR for your participation in the GPS Portfolio Manager Program. The compensation that your IAR receives related to your participation in the GPS Portfolio Manager Program creates a financial incentive for her/him to recommend your enrollment in, and additional investments in, the GPS Portfolio Manager Program.

*For more information about the fees associated with the GPS Program, see the Wrap Fee Program Brochure for the GPS Program and GPA Program, which is available upon request from your IAR or from VFA.*

### (3) GPA Program

The GPA Program is only available to individuals who have purchased a PD Advantage (prior to January 29, 2018) or PD Freedom Advisor fixed and variable annuity contract. While you are enrolled in the GPA Program, you pay the advisory fees for the management of your account(s) and other fees and expenses of the product or platform in which you are invested.

**Advisory Fees:** Clients in the GPA Program pay an advisory fee based on the account value of their PD Advantage or PD Freedom Advisor account at the calendar quarter-end. The GPA Program advisory fee rate may not be negotiated. The rate applicable to your account is included in your Advisory Agreement. For the services rendered in connection with the PD Advantage contract, you pay an annual advisory fee rate of up to 1.00% of assets under management in the contract. For services rendered in connection with the PD Freedom Advisor contract, you pay an annual advisory fee rate of up to 1.12%.

**Other Fees and Expenses.** As a contract owner in either PD Advantage (accounts established prior to January 2018) or PD Freedom Advisor (accounts established beginning in January 2018), you bear the fees and expenses of the annuity contract, including, but not limited to, separate account charges, account maintenance fees, surrender charges, if applicable, and the fees and expenses of the underlying mutual funds available in the applicable contract. The PD Advantage contract and the PD Freedom Adviser contracts include mutual funds in which they, or their affiliates, have an agreement with VALIC to pay for administrative, recordkeeping and/or distribution and shareholder services that VALIC or its affiliates provide to the underlying mutual fund(s) in these products. Currently, the payments VALIC receives from these mutual funds or their affiliates for the PD Advantage contract range from 0.00% to 0.40%, and for the PD Freedom Adviser contract from 0.00% to .025%, based on the market value of the assets invested in the underlying mutual fund(s) as of a certain date, usually paid at the end of each calendar quarter. VALIC may, in its discretion, apply some or all of these payments to reduce the separate account charges applicable to the corresponding fund options in these contracts. The PD Advantage and PD Freedom Adviser contracts includes VALIC Company II mutual funds ("VALIC II") which pay up to 0.25% for various administrative services. VALIC reduces the separate account charge by the amount of the payment that it receives from the VALIC II funds. Please review your variable annuity product prospectus for details regarding its fees and the mutual fund prospectuses for details regarding their respective fees and expenses.

**Compensation to your IAR.** IARs are compensated from the advisory fees paid on assets in the GPA Program in your PD Advantage or PD Freedom Advisor contracts, up to 0.90% annually based on the value of assets in the account. The advisory fees charged by VFA may be similar to or higher than the fees charged by other investment advisers. The compensation received may or may not be more than what would be received if you paid us separately for investment advice, brokerage and other services. If the amount would be more than what an IAR would receive if you participated in other programs we offer or paid separately for investment advice, brokerage and other services, the IAR will have a financial incentive to recommend this program over other programs or services.

*For more information about the fees associated with the GPA Program, see the Wrap Fee Program Brochure for the GPS Program and GPA Program, which is available upon request from your IAR or from VFA.*

### (4) Financial Planning

The Firm does not charge for completing a comprehensive financial plan.

Once the written report has been provided to the client, there are no continuing obligations with respect to the information or conclusions presented in the report. Following the delivery of the written report, your IAR, who is also a registered representative of the Firm, may recommend the purchase or sale of securities, insurance products or advisory services. If you purchase a product or enroll in a service based on those recommendations, the Firm and/or your IAR will receive compensation in the form of a commission or ongoing fee.

#### **Item 6 - Performance-Based Fees and Side-by-Side Management**

Neither VFA nor its IARs charge performance-based fees. Performance-based fees are fees that are based on a share of capital gains on or capital appreciation of the assets of a client.

#### **Item 7 - Types of Clients**

VFA and its IARs provide advisory services to individuals, including high net worth individuals, and participants in employer-sponsored retirement plans. VFA may also provide advisory services to trusts, corporations, or other business entities depending on the advisory program. While VFA provides advisory services to participants in employer-sponsored retirement plans, VFA does not provide advisory services to the plan sponsors of such retirement plans, with a limited number of exceptions as described in this paragraph. Such exceptions represent a limited set of express contractual accommodations outside of the advisory programs described in this Firm Brochure. These limited accommodations generally involve prescribed advisory support for: monitoring existing plan investment options based upon third party data and analysis; recommendations of investment option replacements; limited or no discretionary authority to replace an investment option (such as a mutual fund) without authorization of the plan or program sponsor; and, application of resulting fund changes to participant investment allocation elections when an investment option is no longer available. VFA does not intend to enter into additional accommodations of this type.

Depending on which wrap fee program a client selects, VFA may require a minimum dollar value of assets as a condition of maintaining an investment advisory account. VFA at its sole discretion may waive the required minimum dollar assets to maintain an account.

The clients that may participate in VFA advisory programs and the minimum initial account size requirements for opening an account are as follows:

- **MIP Program.** This service is available to individuals, trusts, corporations and other business entities. The minimum initial account balance for the MIP portfolios range from \$5,000 to \$250,000, depending on the portfolio. **The Firm reserves the right to lower the minimum required amount on a case-by-case basis, as well as the right to terminate an account if the assets in an account fall below the applicable minimums.** See the *MIP Wrap Fee Program Brochure* for additional information regarding minimum account balances.
- **GPS Program.** This service is currently only available to individual participants in a retirement plan account with VALIC or VRSCO. There is no minimum account balance to participate in the program.
- **GPA Program.** This service is available to individuals, trusts, corporations and other business entities. To enroll in this program, you must purchase a PD Freedom Advisor contract. Existing PD Advantage contract owners who have previously enrolled in the GPA Program may make subsequent deposits into the contract, which will be managed under the program. The GPA Program does not have a minimum account balance though the PD Freedom Advisor contract has a minimum initial premium payment of \$25,000.
- **Financial Planning.** The Firm's financial planning services are limited to individuals.

### **Item 8 - Methods of Analysis, Investment Strategies and Risk of Loss**

**MIP:** If you are interested in establishing an MIP account, your IAR will provide assistance in determining your asset allocation and the selection of your MIP portfolio options. Your asset allocation will be based upon your responses within an investment profile questionnaire (the "Client Profile Questionnaire"), which includes factors such as risk tolerance, goals, investments objectives and time horizon. Your portfolio will be assigned an allocation ranging from Very Conservative to Very Aggressive with several allocations in between. After completing the Client Profile Questionnaire, your IAR will help you complete an additional questionnaire designed to determine your investment focus, which may include traditional asset allocation, cost sensitivity, and socially and environmentally responsible investing, among others. Note that, if your IAR recommends the Selected Managed Investor Account Portfolio, as described in the MIP Wrap Fee Program Brochure, you will not complete the second questionnaire. Based on your responses in the second questionnaire, your IAR will recommend one or more MIP portfolios that best meet your needs based on the information you have provided. As your needs change or market conditions warrant, we have the flexibility to revisit your investor profile to determine whether you are appropriately invested. Should any of your information change, you should contact your IAR. An IAR is available to answer any questions and to help implement any changes you want to make based on changes in personal or financial circumstances, or the financial markets.

Based on your responses to the Client Profile Questionnaire and follow-up questionnaire, a plan will be developed and your IAR will present the plan to you for your review and approval. After you have reviewed and approved the plan, Envestnet PMC will invest and monitor your account for conformance to the plan and will rebalance your account periodically to maintain the asset allocation for the MIA Portfolio, MIA ActivePassive Portfolio, MIA AIG Funds Portfolio, MIA American Funds Active Core Portfolio, MIA Franklin Templeton Funds ActivePassive Portfolio, Index Plus MIA Portfolio, MIA California Residents Portfolio, MIA Retirement Income Portfolio, MIA Passive Foundation Portfolio, and MIA Impact Foundation Portfolio. For the Selected MIA Portfolio, based on your responses to the Client Profile Questionnaire only, your IAR will recommend a separate account manager from a list of managers for which Envestnet PMC has conducted due diligence. Your IAR will present the plan to you for your review and approval. Once the plan is implemented, the separate account manager will invest and manage your account for conformance to the plan and will rebalance your account periodically.

Note that for the Integrated MIA Portfolio, and based on your responses to the Client Profile Questionnaire and follow-up questionnaire, Envestnet PMC will develop a customized plan of investments for you which may include investment products such as mutual funds, ETFs, and separate account managers. Once the account plan is implemented, Envestnet PMC will monitor your account for conformance to the plan and will rebalance your account periodically to maintain the asset allocation. For the MIA Russell Portfolio and based on your responses to the Client Profile Questionnaire and follow-up questionnaire, Russell Investments will build a portfolio of mutual funds suitable for your situation and Envestnet will monitor your account for conformance to the plan and will rebalance your account periodically to maintain the asset allocation. For the MIA CLS Smart ETF and MIA CLS Focused Strategies Portfolios and based on your responses to the Client Profile Questionnaire and follow-up questionnaire, CLS Investments will build a portfolio of ETFs suitable for your situation and Envestnet will monitor your account for conformance to the plan and will rebalance your account periodically to maintain the asset allocation.

If you are interested in learning more about MIP, a complete description of the programs, services and fees are available in **VFA's Form ADV Part 2A, Appendix 1 - MIP Wrap Fee Program Brochure, investment advisory agreement, and account opening documents.** These documents are available upon request from your IAR or from VFA.

**GPS:** VFA offers the GPS Program, which is an advice and asset management program offered to individuals in connection with their participation in certain employer-sponsored retirement plans. This advisory program is available to participants in retirement plan accounts where the plan service provider is either VALIC or VALIC Retirement Services Company (“VRSCO”), each an affiliate of VFA. Your retirement account may be invested in a VALIC Portfolio Director (“PD”) variable annuity or in a mutual fund program through which VRSCO provides recordkeeping, compliance and administrative services to the plan and plan participants.

As part of your enrollment in the GPS Portfolio Manager Program, you will complete a GPS Client Profile (“GPS Client Profile”). The GPS Client Profile will help you to think about your retirement income goal and time horizon, as well as allow you to disclose your risk preferences and information about the assets, benefits, and retirement savings contributions that you intend to use to fund your retirement. The GPS Program uses this information to develop an Investment Policy Statement (“IPS”), which will include a portfolio assignment and will determine how your account(s) will be invested. There are seven portfolio assignments, ranging from Very Conservative to Very Aggressive. The asset classes and specific investment vehicles used in these portfolios depend on the investment vehicles available in the plan’s lineup, which is determined by the plan sponsor. For further information related to the Methods of Analysis, Investment Strategies, and Risk of Loss, please refer to the description of the GPS Program provided in Item 4 of this Brochure.

**If you are interested in learning more about the GPS Program, a complete description of the program, services and fees are available in VFA’s Form ADV Part 2A, Appendix 1 – Wrap Fee Program Brochure for the GPS Program and GPA Program, investment advisory agreement, and account opening documents. These documents are available upon request from your IAR or from VFA.**

**GPA:** Before enrolling in the GPA Program, you must first complete a GPA Client Profile and Risk Tolerance Questionnaire (“GPA Client Profile”). The GPA Client Profile will help you to determine your risk tolerance and time horizon. This will help to determine an Asset Allocation Policy and portfolio assignment, which determines how your account will be invested.

Similar to the GPS Program, Morningstar is the independent financial expert to the GPA Program. In its role as independent financial expert, Morningstar uses a tactical asset management program that develops a set of well diversified model portfolios beginning with strategic asset allocations that are typically reviewed annually and updated if necessary. Then, as frequently as monthly, Morningstar analyzes the performance trends of all the asset classes included in their model portfolios and adjusts allocations to asset classes in order to take advantage of these trends. However, to keep the tactical asset allocation targets consistent with each model portfolio’s intended investment objectives, Morningstar does limit how much the tactical allocations are allowed to deviate from their corresponding strategic allocations before rebalancing to bring accounts back into targeted alignment. After establishing tactical asset allocation targets, Morningstar completes construction of the GPA model portfolios using a mix of investment options that allows them to hit their tactical asset allocation targets. When updates to the model portfolios are implemented, the investment allocations of accounts managed by GPA are reviewed and reallocated to the new targets as necessary.

***If you are interested in learning more about the GPA Program, a complete description of the program, services and fees are available in VFA’s Form ADV Part 2A, Appendix 1 – Wrap Fee Program Brochure for the GPS Program and GPA Program, investment advisory agreement, and account opening documents. These documents are available upon request from your IAR or from VFA.***

**General Investment Risks.** Investing in securities involves risk of loss that clients should be prepared to bear. The methods of analysis and investment strategies used by VFA and material risks are described below.

In the GPS Program and the GPA Program, Morningstar provides investment advice and asset allocation for retirement plan and variable annuity accounts. Accounts enrolled in the GPS Program will be managed exclusively in accordance with the retirement objectives indicated on your GPS Client Profile. Within your GPS Program advisory account, your assets will be allocated among the mutual funds or fixed interest options within a variable annuity or within a combination of mutual funds and a group fixed annuity, which annuities and funds were selected by your employer/retirement plan sponsor. Within your GPA Program advisory account, your assets will be allocated among the mutual funds or fixed interest options within an individual variable annuity that you have purchased. Within your retirement plan, Morningstar may select investment options or mutual funds from a range of asset classes, including but not limited to domestic equities, international/foreign equities, fixed income, and others.

In MIP, the Strategists or, in certain portfolios, a separate account manager will provide investment advice and asset allocation for the portfolio models. Each MIP portfolio has different investments strategies and objectives. Your IAR will work with you to determine which portfolio best meets your financial needs.

### **Risks Investing in ETFs and Mutual Funds**

***Unique Risks of Investing in ETFs.*** An ETF is a security that trades on an exchange during market hours and typically seeks to track an index, commodity, or a basket of assets like an index fund. However, some ETFs are actively managed and do not seek to track a certain index or basket of assets. ETFs may trade at a market price which reflects a “premium” or a “discount” to the net asset value (“NAV”) of their shares. If the market price is higher than the NAV, the ETF is said to be trading at a “premium”. If the price is lower, it is trading at a “discount”. Accordingly, ETFs may be purchased at prices that exceed the NAV of their underlying investments and may be sold at

prices below such NAV. Under such circumstances the sale of ETF shares sold at a discount may not reflect the NAV of the underlying investments of those ETF shares. Moreover, there are costs associated with purchasing and selling an ETF, called a “bid-ask” spread (the difference between what a buyer is willing to pay (bid) for an ETF and the seller’s offering (ask) price). All of these transaction costs (which do not apply to the purchase and sale of mutual funds) will adversely affect the performance of the MIP portfolios models that invest primarily in ETFs. ETFs may also have unique risks depending on their structure and underlying investments.

*Risks of Investing in Equity Funds.* Stock markets are volatile and can decline significantly and quickly over short or even long periods in response to adverse issuer, political, regulatory, market, or economic developments. In a diversified equity fund, the overall systematic (market risk) poses the greatest potential for losses in your account(s). In addition, equity investments may be subject to risk related to market capitalization as well as company-specific risk.

*Risk of Investing in International/Foreign Funds.* Foreign investing involves risks not typically associated with U.S. domestic investments, and the risks may be further amplified in emerging market countries. These risks may include, among others, adverse fluctuations in foreign currency values, as well as adverse political, social and economic developments affecting one or more foreign countries. In addition, foreign investing may involve less publicly available information and more volatile or less liquid securities markets, particularly in markets that trade a small number of securities, have unstable governments, or involve limited industry.

*Risks of Investing in Fixed Income Funds.* In general, fixed income securities carry interest rate risk. As interest rates rise, bond prices usually fall, and vice versa. This effect is usually more pronounced for longer-term securities. The ability of an issuer of a bond to repay principal prior to a security’s maturity can cause greater price volatility if interest rates change, and, if a bond is prepaid, a bond fund may have to invest the proceeds in securities with lower yields. Fixed income securities also carry inflation risk, credit risk (the risk of changes in the financial condition of an issuer) and default risk (the risk that the issuer may fail to pay its debts) for both issuers and counterparties. Unlike investing in individual bonds, typically bond funds do not have a set maturity date, so holding them until maturity to avoid losses caused by price volatility is not possible. In addition, investments in certain bond structures may be less liquid than other investments, and, therefore may be more difficult to trade effectively.

*Risks of Investing in Municipal Bond Funds.* The MIP Program portfolios may invest in the municipal bond market, which can be affected by adverse tax, legislative, or political changes, and by the financial condition of the issuers of individual municipal securities. Municipal bond funds normally seek to earn income and pay dividends that are expected to be exempt from federal income tax. If you are a resident in the state of issuance of the bonds held by the fund, interest dividends may also be exempt from state and local income taxes. Income exempt from regular federal income tax (including distributions from tax-exempt, municipal, and money market funds) may be subject to state, local, or federal alternative minimum tax. Certain municipal bond funds normally seek to invest only in municipal securities generating income exempt from both federal income taxes and the federal alternative minimum tax; however, outcomes cannot be guaranteed, and the funds may sometimes generate income subject to these taxes.

*If you are interested in learning more about the GPA Program, a complete description of the program, services and fees are available in VFA’s Form ADV Part 2A, Appendix 1 – Wrap Fee Program Brochure for the GPS Program and GPA Program, investment advisory agreement, and account opening documents. These documents are available upon request from your IAR or from VFA.*

#### **Item 9 - Disciplinary Information**

We are required to disclose any legal or disciplinary events that are material to our clients or our prospective client’s evaluation of our investment advisory business or the integrity of our management. The following are disciplinary events relating to the Firm and/or our management personnel:

On November 28, 2016, without admitting or denying the Financial Industry Regulatory Authority (“FINRA”) findings, the Firm submitted a letter of acceptance waiver or consent for the purpose of settling alleged NASD and FINRA rule violations that it failed to: (1) have a reasonable system or process/procedures designed to address, analyze or review the conflicts of interest in its compensation program or to ensure that balanced disclosures was provided to the investors regarding such compensation program, (2) to maintain adequate systems and procedures to supervise the sale of variable annuities to retail brokerage customers, (3) maintain supervisory procedures and training materials that provide registered representatives and principals guidance or suitability considerations for sales of different variable annuity share classes, including L-share variable annuities, (4) enforce supervisory procedures requiring that certain emails flagged by its email surveillance system be reviewed by designated Firm supervisors, (5) establish a reasonable system and procedures to supervise its complaint reporting responsibilities, and (6) failed to issue account notices at account opening and then on 36-month intervals for certain brokerage customers. The Firm was censured and fined \$1,750,000.

On June 3, 2019, without admitting or denying any findings of fact or conclusions of law, the Firm settled a matter with the Securities Enforcement Branch (“SEB”) of the Hawaii Department of Commerce and Consumer Affairs. As part of the settlement, the Firm entered into a consent order with the SEB (the “Consent Order”), which states that the Firm failed to supervise a registered representative who had submitted a transaction without proper customer authorization. Pursuant to the Consent Order, the Firm paid a fine of \$10,000.

## **Item 10 - Other Financial Industry Activities and Affiliations**

VFA is a wholly owned subsidiary of VALIC, which is a Texas-domiciled insurance company and an SEC-registered investment adviser. VALIC is primarily engaged in the offering and issuance of fixed and variable annuity contracts and combinations thereof and is licensed to issue annuities in 50 states and the District of Columbia. VALIC is an indirect, wholly owned subsidiary of AIG.

In addition to being registered with the SEC as an investment adviser, VFA is registered with the SEC, FINRA and state securities commissions as a broker-dealer, and as an insurance agency. In this capacity, VFA is involved in the sale of various types of securities, including, but not limited to, stocks, bonds, variable investment products and mutual funds. VFA, as well as our financial advisors, receive separate compensation for securities transactions effected through the Firm.

- AIG Capital Services, Inc. ("ACS") is an indirect, wholly owned subsidiary of AIG and an affiliate of the Firm. In its capacity as a registered broker-dealer, ACS acts as principal underwriter for the offer, sales and distribution of the variable annuity contracts issued by VALIC and its affiliates and as distributor of registered investment companies advised by VALIC and SAAMCo.
- SAAMCo is an indirect, wholly owned subsidiary of AIG and an affiliate of the Firm. SAAMCo is the investment adviser for AIG mutual funds, including the AIG mutual funds available within the MIAAIG Funds Portfolio. It also serves as an administrator and investment sub-adviser to certain registered investment companies advised by VALIC.
- AIG Federal Savings Bank, an affiliate of the Firm, acts as custodian/trustee for employer-sponsored retirement plans for which the Firm provides enrollment, education and advisory services to individual plan participants.
- VALIC Retirement Services Company ("VRSCO") is a wholly owned subsidiary of VALIC and an SEC-registered transfer agent for registered investment companies advised by VALIC and SAAMCo. VRSCO is also a record keeper and service provider to certain retirement plans for which the Firm provides enrollment, education and advisory services.
- VALIC Company I/VALIC Company II (the "VALIC Funds") are registered investment companies advised by VALIC and, with respect to certain funds, sub-advised by SAAMCo. The VALIC Funds are offered as underlying investment options within VALIC-issued variable annuity contracts and as mutual funds in employer-sponsored retirement plans for which VFA offers the GPS Program and GPA Programs, as applicable. For these funds, SAAMCo is the administrator and, for certain funds, an investment sub-adviser, AIGCS is the distributor, and VRSCO is the transfer agent. Additionally, with respect to the VALIC Company II funds, VALIC provides shareholder services to shareholders invested in the funds.
- The AIG Funds are registered investment companies advised by SAAMCo and comprise all or substantially the funds held within MIAAIG Funds Portfolio. The AIG Funds within the AIG Funds Portfolio will include series within the SunAmerica Equity Funds, SunAmerica Income Funds, SunAmerica Specialty Series, SunAmerica Senior Floating Rate Fund, and SunAmerica Series, Inc. AIGCS is the distributor of the AIG Funds.

The PD Freedom Advisor annuity, whether or not coupled with the GPA Program, generates higher revenues for VFA and VALIC in the aggregate than does MIP. We mitigate this conflict of interest, which exists at the Firm level, by paying IARs, who are responsible for making recommendations to clients, the same amount irrespective of whether the client is invested through MIP or GPA. There remains an incentive for an IAR to recommend that a client move out of a product where the IAR is not earning, or earning less, compensation (e.g., an old annuity product) and into an advisory product. VFA manages the potential for this conflict of interest by maintaining policies and procedures designed to ensure that IARs make recommendations that are in the best interest of the investor in the context of the products and services offered by VFA. All transactions, including transfers from one product to another (such as MIP) are reviewed by the Supervision department to ensure the recommendation is in the client's best interest. Employees in the Supervision department do not receive variable compensation based on product sales. Additionally, VFA maintains programs for the internal review of these policies and procedures via internal auditing procedures, other compliance related review and surveillance activities, and from time-to-time VFA engages outside consultants to review, evaluate, and recommend changes to existing policies and procedures.

In our capacity as a broker-dealer, we provide to our clients a variety of products and services for which we are compensated. To the extent that an advisory client chooses to utilize our services as a broker-dealer, VFA and our registered representatives may earn compensation in the form of brokerage commissions in addition to advisory fees. Our associated persons may recommend to you the purchase or sale of investment products in which we or a related entity may have some financial interest, including, but not limited to, the receipt of compensation.

For the MIAAIG Funds Portfolio offered in the MIP Program, only AIG Funds are used with limited exceptions. For the AIG Funds in the portfolio, VFA chooses to use the share class that charges a Rule 12b-1 fee because the overall expense ratio charged to investors (after VFA's rebate of such Rule 12b-1 fees) is lower than the available non-12b-1 share class. Please note, however, that VFA's affiliate, AIG Capital Services, Inc., will receive a 10-basis point 12b-1 fee from this share class.

## Item 11 - Code of Ethics, Participation or Interest in Client Transactions and Personal Trading

VFA has adopted a Code of Ethics ("Code") for which it periodically reviews and updates. VFA will provide a current copy of its Code to clients and prospective clients upon request by contacting us at (866) 544-4968.

VFA, as an investment adviser, has a fiduciary duty to act solely for the benefit of its advisory clients. The Code requires honest and ethical conduct by all of our supervised persons, compliance with applicable laws and governmental rules and regulations, the prompt internal reporting of violations of the Code to an appropriate person or persons identified in the Code, and accountability for adherence to the Code. The Code is designed to protect the organization and its clients from damage that could arise from a situation involving a real or apparent conflict of interest. While it is not possible to identify all possible situations in which conflicts might arise, this Code is designed to set forth our policy regarding the conduct of our supervised persons in those situations in which conflicts are most likely to develop.

Supervised persons are expected to adhere to the Code and are also expected to follow procedures for reporting any violations of the Code.

For access persons, VFA requires that certain securities transactions be disclosed and/or reported. Access persons are any of VFA's supervised persons who have access to non-public information regarding any investment advisory client's purchase or sale of securities, or nonpublic information regarding the portfolio holdings of any reportable fund (as defined in the Code) or any person who is involved in making certain types of securities recommendations to investment advisory clients, or who has access to such recommendations that are non-public.

## Item 12 - Brokerage Practices

VFA does not select or recommend broker-dealers for securities transactions in the MIP, GPS and GPA Programs and does not determine the reasonableness of broker-dealer's compensation.

For the MIP Program, NFS is the clearing firm for MIP accounts, meaning that all trades are placed through NFS, and it is also the custodian of MIP accounts. A portion of the Platform Fee (which is a component of the Program Fee) is paid to NFS for its services in connection with MIP accounts. While the Platform Fee includes custodial services for most accounts, NFS will separately charge an annual IRA custodial fee for services rendered as trustee of IRA accounts.

For the GPS and GPA Programs, transactions are recommended based on the methodologies provided and controlled by Morningstar (as independent financial expert) and are processed through VFA's affiliated recordkeeper, VALIC/VRSCO.

VFA's affiliate, SAAMCo, is the investment adviser for AIG Funds available within the MIA AIG Portfolio and conducts transactions for securities in the AIG Funds based on its brokerage practices, policies and procedures.

**Research and Other Soft Dollar Benefits.** VFA does not receive research or other products or services, commonly referred to as "soft dollar benefits" from broker-dealers or other third parties in connection with client securities transactions.

**Brokerage for Client Referrals.** VFA does not select or recommend broker-dealers based on the receipt of client referrals.

**Directed Brokerage.** VFA does not engage in this practice.

## Item 13 - Review of Accounts

### (1) MIP Program

**Review of Accounts.** The Firm engages in ongoing monitoring of the programs. The Firm, through the Investment Group, periodically meets with Envestnet to review the MIP portfolio models' investment performance, Strategists and other matters related to MIP. For most MIP portfolios, Envestnet and the Strategist will monitor your account on an ongoing basis and will rebalance your account periodically. The Firm relies on Envestnet and the Strategist (and in certain cases, the separate account manager) to ensure the tools and analyses are operating properly and that the analyses continue to meet the criteria specified by the Firm and your responses in the Client Profile Questionnaire.

**Written Reports.** Clients receive quarterly written reports from Envestnet that itemize the activity in your Account during the preceding quarter, the current asset allocation, and the market value of the Account. The report will also provide market commentary, a breakdown of investments, and an account summary that includes the beginning balance, end-of-quarter balance, and year-to-date values. Additionally, NFS will mail you trade confirmations and quarterly account statements for your Account. You will also receive all statements and forms required to be provided to you for tax reporting purposes.

### (2) GPS Program

**Review of Accounts.** For the GPS Portfolio Advisor program VFA does not include any periodic review of accounts. It is a one-time recommendation for the allocation of your account value among the fixed and variable investment options in your VALIC variable annuity or among the mutual funds in your mutual fund retirement program account for which you may choose to implement or reject. For the GPS

Portfolio Manager program, at the end of each calendar quarter, the investor profile information used to generate your retirement income forecasts and investment advice and to perform asset management is sent to you for review. Further, in the quarter prior to the annual update to your GPS Portfolio Manager program retirement income forecast and investment advice, VFA will contact you to determine if updates to your GPS Client Profile information are required. Periodically VFA will send you reminders to go online, or contact your IAR or the Asset Management Center, to update your GPS Client Profile information. It is important for you to contact your IAR should you have any changes in your financial situation or related life events to ensure that your GPS Client Profile remains up to date.

When advice is generated for the account(s) you have managed under the GPS Portfolio Manager program (the initial advice, the automatic annual advice, and any ad hoc advice that you may request), the account(s) will be reviewed to determine whether transactions are required to allocate your assets per the target allocations of the model portfolio to which your account is being managed.

Approximately every 91 days, beginning with your GPS enrollment date, the accounts you have managed under the GPS Portfolio Manager program are rebalanced as necessary to bring the allocations back in line with the target allocations of your assigned model portfolio. The rebalancing schedule does not change due to ad hoc advice having been provided.

**Written Reports.** Clients in the GPS Portfolio Advisor program do not receive written reports. This program offers web-based advice enabling an individual to make investment decisions.

Clients in the GPS Portfolio Manager Program will receive a regular VALIC quarterly statement that shows transactions for the prior quarter, fees imposed during that prior quarter, and current asset allocation. These clients will also receive a Quarterly Advice Statement (“QAS”) and IPS that are described below.

The QAS is a reminder of your most recent retirement income forecast, recommendations, and the investment advice to which your assets are being managed. It is also a reminder of the GPS Client Profile information and your VALIC account balance information that were used as inputs to generate your most recent advice, and it shows the fees for the calendar quarter just ended. You will usually get the QAS during the month following the calendar quarter end. You will receive a QAS for each plan that you have managed under GPS Portfolio Manager as of the calendar quarter that just ended.

The IPS reflects the retirement income forecast, recommendations and investment advice provided by the Firm. Any time your advice is regenerated—whether as part of the automatic annual regeneration, or as requested by you – a new IPS will be generated to reflect the retirement income forecast, recommendations, and investment advice to which your assets will be managed. The IPS also shows the GPS Client Profile information and your VALIC account balances that were used as inputs for generating this advice.

### (3) GPA Program

**Review of Accounts:** As frequently as monthly, Morningstar analyzes the performance trends of all the asset classes included in their model portfolios. When updates to the model portfolios are implemented, the investment allocations within the GPA Program are reviewed and reallocated to the new targets as necessary.

**Written Reports:** Clients in the GPA Program receive a quarterly VALIC account statement that shows details about their VALIC variable annuity account(s), including transactions for the prior quarter, fees imposed during that prior quarter, and current asset allocation. The VALIC quarterly statement will also show you which model portfolio those assets were being managed to at that time. You will periodically receive confirmation statements from VALIC that reflect the transactions during the period and the model portfolio asset allocation targets associated with your GPA Program account(s).

### (4) Financial Planning.

**Review of Accounts:** The financial planning service generally includes the delivery of a written financial plan as one-time advice, where applicable, and does not include ongoing monitoring of accounts. No additional monitoring or reports are provided unless the client requests a revision to the plan within a specified time period following delivery.

### Item 14 - Client Referrals and Other Compensation

VFA maintains a program under which its representatives are eligible to attend an annual conference based on their achievement of certain levels of aggregate compensation from the sale of securities, insurance products, and advisory fees received from advisory accounts. Certain of the Firm's top earning IARs are designated as President's or Platinum President's Cabinet members and receive additional compensation and benefits. Qualification for the Advisor Leadership Conference or the President's or Platinum President's Cabinet is based on total compensation as described above and is not based on any specific product or category of products. However, because eligibility for the conference and the President's or Platinum President's Cabinet is based on the IAR's total compensation, IARs are incentivized to have clients purchase products or transfer assets to services or products that earn higher levels of compensation for the IAR.

In addition, the Firm may implement programs under which IARs may be eligible to win non-cash awards, trips and other non-cash benefits offered by the Firm for certain sales efforts relating to enrollments in employer-sponsored retirement plan accounts, among other factors. Similar to other sales-based programs, such non-cash awards are not based on the sale of any specific product or category of products. These programs will not change the fees that you pay for advisory services.

With respect to each of the Firm's advisory programs, a portion of the advisory or program fees you pay to the Firm is paid to your IAR. Generally, the percentage of the fees that the Firm pays to your IAR from your GPA or MIP programs increases based on a rolling 52-week period as their aggregate compensation from both the sale of insurance/securities products and receipt of advisory fees reaches certain thresholds during that rolling time period. This increase in compensation to the IAR will not increase the advisory fee you pay to the Firm.

The Firm and/or one or more of its affiliates will receive voluntary payments from fund sponsors and service providers that choose to participate in, and that are designed to defray the costs associated with, Firm-sponsored or VALIC-sponsored conferences, seminars, training or other educational events where such funds or other related services are discussed and that are attended by our employees or employees of our affiliates and/or plan sponsors and plan consultants.

***Sponsorship activities of VALIC.*** The Firm may from time to time enter into agreements with, and pay compensation to, organizations that provide various services to plan sponsors. These organizations may sponsor, and invite the Firm to participate in, educational conferences and seminars for retirement plan participants who, through their retirement plan, have access to the Firm's advisory programs. Such organizations may in some instances endorse the Firm's advisory services (including financial planning and GPS) or products, in mailings to participants or on their respective websites. These organizations may also otherwise provide the Firm with marketing opportunities. The Firm's payments to certain of these organizations may be considered payments for client referrals and endorsements and provide an incentive to these organizations to promote the Firm's products and advisory services.

VALIC maintains ongoing relationships with various organizations and associations, including trade associations, unions, and other industry groups, to which VALIC makes sponsorship payments for marketing and advertising opportunities. These marketing and advertising opportunities may take the form of participation in leadership and recognition events, educational conferences, speaking opportunities, booth space and signage at membership conferences and similar events, and membership dinners. Such payments are typically flat fees (either one-time or recurring) and are not based on transactions or sales.

VALIC also has ongoing relationships with plan sponsors. As part of these ongoing relationships, VALIC may sponsor events and seminars for plan participants that provide education for plan participants, as well as marketing and advertising opportunities for VALIC. Such sponsorships may include providing occasional meals, entertainment, or nominal gifts to the extent permitted by FINRA rules.

These sponsorships may be considered endorsements of VALIC products, may result in additional annuity sales to plan participants, and may provide an incentive to these organizations, associations, and plan sponsors to promote the Firm's products and services.

## **Item 15 - Custody**

### **(1) MIP Program**

The Firm has "custody" of client assets as defined in Advisers Act Rule 206(4)-2 because it is authorized to deduct advisory fees from a client's account. Transactions within your MIP account will be executed through your account with VFA. All transactions in MIP are cleared through NFS. NFS also provides custodial services for assets in advisory accounts and separately serves as trustee of IRA accounts, as applicable. VFA itself will not take custody of your advisory account assets. However, VFA does have authority pursuant to the advisory agreement between the Firm and the client to deduct advisory fees from your account.

Investnet will furnish you a quarterly written report that itemizes the activity in your MIP account during the preceding quarter, the current asset allocation, and the market value of the account, which will also reflect the deduction of the Program Fee. The report will also provide market commentary; a breakdown of investments within each asset class; and an account summary that includes the beginning balance, end-of-quarter balance, and year-to-date values. Investment account assets will be valued based on the NAV of the mutual funds and the market value or NAV, as appropriate, of other investments in which your account assets are invested. NFS will mail you trade confirmations and quarterly account statements for your program account investments. You will also receive all statements and forms required to be provided to you for tax reporting purposes.

VFA urges you to carefully review such statements and compare such official custodial records to the account statements that we provide to you. Our statements may vary from custodial statements based on reporting dates. You should contact your IAR if you have any comments or questions regarding these statements.

### **(2) GPS and GPA Programs**

The Firm has "custody" of client assets as defined in Advisers Act Rule 206(4)-2 because (1) it is authorized to deduct advisory fees from a client's account; and (2) related persons maintain custody of client assets within a variable annuity contract or employer-sponsored retirement plan. The Firm's parent company, VALIC, maintains custody of client assets invested in variable annuity contracts that it issues, and AIG Federal Savings Bank ("AIGFSB") is the custodian for client assets in employer-sponsored mutual fund retirement plans, for which VRSCO is the plan recordkeeper. Because the Firm has "custody" of client assets as defined in Advisers Act the Firm undergoes an annual surprise custody exam by an independent public accountant and receives an annual internal control report from the related person's independent public accountant.

GPS and GPA transactions within your PD account(s) will be executed through your variable annuity account(s) with VALIC. VALIC will mail you trade confirmations and quarterly account statements that itemizes the activity in your variable annuity account during the preceding quarter, the current asset allocation, and the market value of the account. GPS transactions within your employer-sponsored retirement plan account invested in mutual funds will be executed through your account for which VRSCO is the plan record keeper. AIGFSB is the custodian for these accounts. VALIC sends a quarterly account statement that itemizes the activity in your program account during the preceding quarter, the current asset allocation, and the market value of the account.

VFA urges you to carefully review these statements; you should contact your IAR if you have any comments or questions.

### **Item 16 - Investment Discretion**

*MIP Program.* The Firm has discretionary authority over the MIP Program. The Strategists, who are responsible for the design and management of the MIP portfolio models, exercise investment discretion over clients' accounts. The Strategists include Envestnet PMC, Russell Investments and CLS Investments. Each of the Strategists is responsible for developing a customized plan of investment options based on your input regarding your financial situation and related information, and once the plan is implemented, providing ongoing monitoring of your account for conformance to the plan which will include rebalancing your account periodically to maintain the asset allocation. You must provide a signed Statement of Investment Selection, which incorporates the investment advisory agreement, before we can begin any discretionary trading in your account.

*GPS Portfolio Advisor.* The GPS Portfolio Advisor program is a nondiscretionary program. Once you have submitted the necessary inputs to the GPS Client Profile, you will receive a one-time recommendation for the allocation of your account value, and future contributions, among the fixed and variable investment options in your VALIC variable annuity or among the investment options available in your mutual fund retirement program account. It is then your decision whether to implement the investment advice in whole, in part, or not at all, as VFA provides non-discretionary investment advice only in this program, and does not engage in any account management or monitoring of assets for this program. Consistent with the SunAmerica Opinion, Morningstar is the independent financial expert to the GPS Program, and provides the advice methodologies that are used to produce investment advice for participants in GPS Portfolio Advisor.

*GPS Portfolio Manager.* The Firm has discretionary authority over the program which includes ongoing automated asset management services such as automatic implementation of the investment advice, periodic portfolio rebalancing, automatically generated annual updates to advice and annual retirement income forecasts for your review, portfolio monitoring and special investment advice statements. Consistent with the SunAmerica Opinion, Morningstar is the independent financial expert to the GPS Program, and provides the advice methodologies that are used to produce the investment advice implemented on behalf of participants in GPS Portfolio Manager. Additionally, you may also receive personalized service from VFA IARs in person or by telephone. You must provide a signed investment advisory agreement before we can begin any discretionary trading in your account.

*GPA Program.* The Firm has discretionary authority over the program which includes ongoing automated asset management services such as automatic implementation of the investment advice, periodic portfolio reallocations and rebalancing, and portfolio monitoring. Consistent with the SunAmerica Opinion, Morningstar is the independent financial expert to the GPA Program and provides the advice methodologies that are used to produce the investment advice implemented on behalf of participants in the GPA Program. You must provide a signed investment advisory agreement before we can begin any discretionary trading in your account.

*Financial Planning.* No investment discretion granted to, or exercised by, VFA in connection with the financial planning services that it offers.

### **Item 17 - Voting Client Securities**

We do not receive proxies for securities held in your accounts. It is our policy that we do not vote, nor give any advice how to vote proxies for securities held in your accounts. Typically, proxy materials for securities held in your accounts will be sent to you by our custodian or the issuer's proxy mailing service. With respect to the MIP Selected Manager Investor Account portfolio, certain separate account managers will vote proxies on your behalf. In the Integrated MIA Portfolio you do not vote proxies but the investment manager, Envestnet, controls the voting of proxies on your behalf. You may obtain a copy of VFA's proxy voting policies and procedures upon request by contacting us at (866) 544-4968. Clients may also contact VFA with questions about a particular solicitation at this same telephone number.

### **Item 18 - Financial Information**

Registered investment advisers are required in this Item to provide you with certain financial information or disclosures about VFA's financial condition. VFA has no financial condition that impairs its ability to meet contractual and fiduciary commitments to clients and has not been the subject of a bankruptcy petition.
