**December 31, 2024**

## Report of Independent Registered Public Accounting Firm

To the Board of Directors of The Variable Annuity Life Insurance Company and The Variable Annuity Life Insurance Company Contract Owners of Separate Account A.

### Opinions on the Financial Statements

We have audited the accompanying statements of assets and liabilities, including the schedules of portfolio investments, of each of the sub-accounts of The Variable Annuity Life Insurance Company Separate Account A ("Separate Account A") indicated in the table below as of December 31, 2024, and the related statements of operations and changes in net assets for each of the periods indicated in the table below, including the related notes (collectively referred to as the "financial statements"). In our opinion, the financial statements present fairly, in all material respects, the financial position of each of the sub-accounts of the Separate Account A as of December 31, 2024, and the results of each of their operations, and the changes in each of their net assets for the periods indicated in the table below, in conformity with accounting principles generally accepted in the United States of America.

### Basis for Opinions

These financial statements are the responsibility of The Variable Annuity Life Insurance Company management. Our responsibility is to express an opinion on the financial statements of each of the sub-accounts of Separate Account A based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to each of the sub-accounts of Separate Account A in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits of these financial statements in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. Our procedures included confirmation of investments owned as of December 31, 2024, by correspondence with the transfer agents of the investee mutual funds and the custodians. We believe that our audits provide a reasonable basis for our opinions.

*PricewaterhouseCoopers LLP*

Houston, Texas  
April 17, 2025

We have served as the auditor of one or more of the sub-accounts of Corebridge Separate Account Group since at least 1994. We have not been able to determine the specific year we began serving as auditor.

The accompanying Notes to Financial Statements are an integral part of this statement.

**SEPARATE ACCOUNT A**  
**THE VARIABLE ANNUITY LIFE INSURANCE COMPANY**

**NOTES TO FINANCIAL STATEMENTS**

**1. Organization**

The Variable Annuity Life Insurance Company Separate Account A (the “Separate Account”) is a segregated investment account established by The Variable Annuity Life Insurance Company (“VALIC”) to receive and invest premium payments from variable annuity contracts issued by VALIC. VALIC is a wholly owned subsidiary of AGC Life Insurance Company (“AGC Life”), which is wholly owned by Corebridge Life Holdings, Inc. (“Corebridge Life Holdings”). Corebridge Life Holdings is wholly owned by Corebridge Financial, Inc. (“Corebridge”). American International Group, Inc. (“AIG”) owned approximately 22.7% and Nippon Life Insurance Company owned approximately 21.7% of outstanding Corebridge common stock as of December 31, 2024.

The Separate Account includes the following variable annuity products:

|  |                                    |
|--|------------------------------------|
| Equity Director                                    | Polaris Platinum Elite             |
| Group Variable Annuity Deferred Contracts (GTS-VA) | Portfolio Director                 |
| Group Unit Purchase (GUP)                          | Portfolio Director Freedom Advisor |
| IMPACT   | Portfolio Director Plus            |
| Independence Plus                                  | Potentia                           |
| Polaris Choice Elite                               |                                    |

The Separate Account contracts are sold primarily through VALIC’s captive sales force. The distributor of the Separate Account is Corebridge Capital Services, Inc., an affiliate of VALIC; however, all commissions are paid by VALIC. No underwriting fees are paid in connection with the distribution of these contracts.

The Separate Account is registered with the Securities and Exchange Commission as a Unit Investment Trust under the Investment Company Act of 1940, as amended. The Separate Account consists of various sub-accounts. Each sub-account invests all its investible assets in a corresponding eligible mutual fund, which is registered under the 1940 Act as an open-ended management investment company. The names in bold in the table below are the diversified, open-ended management investment companies and the names below them are the names of the sub-accounts/corresponding eligible mutual funds. Collectively, all of the mutual funds are referred to as “Funds” throughout these financial statements.

For each sub-account, the financial statements are comprised of a Statement of Assets and Liabilities, including a Schedule of Portfolio Investments, as of December 31, 2024 and related Statements of Operations and Changes in Net Assets for each of the years in the period then ended.

- (d) Formerly American Beacon Bridgeway Large Cap Growth Fund.
- (e) Formerly SAST SA DFA Ultra Short Bond Portfolio.
- (f) Formerly SAST SA Goldman Sachs Global Bond Portfolio.

In addition to the sub-accounts above, a contract owner may allocate contract funds to a fixed account, which is part of VALIC's General Account and not included in these financial statements. Contract owners should refer to the product prospectus for the available Funds and fixed account.

The assets of each of the sub-accounts of the Separate Account are registered in the name of VALIC. Under applicable insurance law, the assets and liabilities of the Separate Account are clearly identified and distinguished from VALIC's other assets and liabilities. The Separate Account assets are not chargeable with liabilities arising out of any other business VALIC may conduct.

Net premiums from the contracts are allocated to the sub-accounts and invested in the Funds in accordance with contract owner instructions and are recorded as contract transactions in the Statements of Operations and Changes in Net Assets.

Each subaccount of the Separate Account constitutes a single operating segment and therefore, a single reportable segment. Separate Accounts are structured with a limited purpose by design and their sole purpose, which records and reports the invested funds and activities and performance chosen by contract/policy holders. Investment performance of the subaccounts may vary based on the underlying fund's investment objectives specified in the fund prospectuses. The chief operating decision maker (CODM) oversees the performance of the underlying funds to evaluate the results of the business and make operational decisions. The accounting policies used to measure the profit and loss of the segment are the same as those described in the summary of significant accounting policies herein.

## 2. Summary of Significant Accounting Policy

The financial statements of the Separate Account have been prepared in accordance with accounting principles generally accepted in the United States (GAAP). The Separate Account is an investment company and follows accounting and reporting guidance under Financial Accounting Standards Board Accounting Standards Codification Topic 946 Financial Services – Investment Companies. The following is a summary of significant accounting policies consistently followed by the Separate Account in the preparation of its financial statements.

**Use of Estimates:** The preparation of financial statements in accordance with GAAP requires the application of accounting policies that often involve a significant degree of judgment. These accounting estimates require the use of assumptions about matters, some of which are highly uncertain at the time of estimation. To the extent actual experience differs from assumptions used, the financial statements of the Separate Account could be materially affected.

**Investments:** Investments in mutual funds are valued at their closing net asset value per share as determined by the respective mutual funds, which generally value their securities at fair value. Purchases and sales of shares of the Funds are made at the net asset values of such Funds. Transactions are recorded on a trade date basis. Realized gains and losses on the sales of investments are recognized at the date of sale and are determined on a first-in, first-out basis. Dividends and capital gain distributions from the Funds are recorded on the ex-dividend date and reinvested upon receipt.

**SEPARATE ACCOUNT A**  
**THE VARIABLE ANNUITY LIFE INSURANCE COMPANY**

**NOTES TO FINANCIAL STATEMENTS (CONTINUED)**

**Reserves for Annuity Contracts in Payout:** Net assets allocated to contracts in the payout period are based on industry standard mortality tables depending on the calendar year of annuitization as well as other assumptions, including provisions for the risk of adverse deviation from assumptions.

Participants are able to elect assumed interest rates between 3.00 and 6.00 percent in determining annuity payments for all contracts.

At each reporting period, the assumptions must be evaluated based on current experience, and the reserves must be adjusted accordingly. To the extent additional reserves are established due to mortality risk experience, VALIC makes payments to the Separate Account. If there are excess reserves remaining at the time annuity payments cease, the assets supporting those reserves are transferred from the Separate Account to the General Account. Transfers between the General Account and the Separate Account, if any, are disclosed as adjustments to net assets allocated to contracts in payout period in the Statements of Operations and Changes in Net Assets. Annuity benefit payments are recorded as payments for contract benefits or terminations in the Statements of Operations and Changes in Net Assets.

**Accumulation Unit:** This is the basic valuation unit used to calculate the contract owner's interest. Such units are valued daily to reflect investment performance and the prorated daily deduction for expense charges.

**Income Taxes:** The operations of the Separate Account are included in the federal income tax return of VALIC, which is taxed as a life insurance company under the provision of the Internal Revenue Code (the Code). Under the current provisions of the Code, VALIC does not expect to incur federal income taxes on the earnings of the Separate Account to the extent that the earnings are credited under the contracts. As a result, no charge is currently made to the Separate Account for federal income taxes. The Separate Account is not treated as a regulated investment company under the Code. VALIC will periodically review changes in the tax law. VALIC retains the right to charge for any federal income tax incurred which is applicable to the Separate Account if the law is changed.

### **3. Fair Value Measurements**

Assets recorded at fair value in the Separate Account's Statement of Assets and Liabilities are measured and classified in accordance with a fair value hierarchy consisting of three "levels" based on the observability of valuation inputs:

- Level 1— Fair value measurements based on quoted prices (unadjusted) in active markets that the Separate Account has the ability to access for identical assets or liabilities. Market price data generally is obtained from exchange or dealer markets. The Separate Account does not adjust the quoted price for such instruments.
- Level 2— Fair value measurements based on inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include quoted prices for similar assets and liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, and inputs other than quoted prices that are observable for the asset or liability, such as interest rates and yield curves that are observable at commonly quoted intervals.
- Level 3— Fair value measurements based on valuation techniques that use significant inputs that are unobservable. Both observable and unobservable inputs may be used to determine the fair value positions in Level 3. The circumstances for these measurements include those in which there is little, if any, market activity for the asset or liability. Therefore, the Separate Account makes certain assumptions about the inputs a hypothetical market participant would use to value that asset or liability.

In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, the level in the fair value hierarchy within which the fair value measurement in its entirety falls is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

The Separate Account assets measured at fair value as of December 31, 2024 consist of investments in registered mutual funds that generally trade daily and are measured at fair value using quoted prices in active markets for identical assets, which are classified as Level 1 throughout the year. As such, no transfers between fair value hierarchy levels occurred during the year. See the Schedule of Portfolio Investments for the table presenting information about assets measured at fair value on a recurring basis at December 31, 2024, and respective hierarchy levels.

### **4. Expenses**

Expense charges are applied against the current value of the Separate Account and are paid to VALIC as follows:

**Separate Account Annual Charges:** Deductions for the mortality and expense risk charges are calculated daily, at an annual rate, on the actual prior day's net asset value of the underlying Funds comprising the sub-accounts attributable to the contract owners and are paid to VALIC. The mortality risk charge represents compensation to VALIC for the mortality risks assumed under the contract, which is the obligation to provide payments during the payout period for the life of the contract and to provide the standard death benefit. The expense risk charge represents compensation to VALIC for assuming the risk that the current contract administration charges will be insufficient to cover the cost of administering the contract in the future.

**SEPARATE ACCOUNT A**  
**THE VARIABLE ANNUITY LIFE INSURANCE COMPANY**

**NOTES TO FINANCIAL STATEMENTS (CONTINUED)**

These charges are included on the mortality and expense risk and administrative charges line in the Statements of Operations and Changes in Net Assets.

The exact rate depends on the particular product issued and funds selected. Expense charges for each product are as follows:

| Products                           | Separate Account Annual Charges  |
|------------------------------------|--|
| Equity Director                    | 1.85% - 2.10%  |
| GTS-VA                             | 0.85% on the first \$10 million<br>0.425% on the next \$90 million<br>0.21% on the excess over \$100 million |
| GUP                                | 1.00%  |
| IMPACT                             | 1.00%  |
| Independence Plus                  | 1.00%  |
| Polaris Choice Elite               | 1.65% - 1.90%  |
| Polaris Platinum Elite             | 1.30% - 1.55% prior to May 1, 2017   |
| Polaris Platinum Elite             | 1.15% - 1.55% on or after May 1, 2017  |
| Portfolio Director                 | 0.20% - 1.25%  |
| Portfolio Director Freedom Advisor | 0.60%  |
| Portfolio Director Plus            | 0.00%  |
| Potentia                           | 1.45%  |

Mortality and expense risk charges of the Separate Account products (as defined to include underlying Fund expenses) are limited to the following rates based on average daily net assets:

| Products | Expense Limitations  |
|----------|--|
| GTS-VA   | 0.6966% on the first \$25,434,267<br>0.50% on the next \$74,565,733<br>0.25% on the excess over \$100 million  |
| GUP      | 1.4157% on the first \$359,065,787<br>1.36% on the next \$40,934,213<br>1.32% on the excess over \$400 million |

**Platform Charges:** In order to make certain underlying Funds available as investment options for the contract, VALIC may assess an additional charge of 0.25 percent related to those Funds that do not pay VALIC for administrative, recordkeeping and shareholder services. These charges are included as part of the mortality and expense risk and administrative charges line in the Statements of Operations and Changes in Net Assets.

**Contract Maintenance Charge:** During the accumulation phase, an annual contract maintenance charge is assessed by VALIC on the contract anniversary. In the event of a full surrender, a contract maintenance charge is assessed at the date of surrender and deducted from the withdrawal proceeds. The contract maintenance charge represents a reimbursement of administrative expenses incurred by VALIC related to the establishment and maintenance of the record keeping function for the sub-accounts. These charges are included as part of the contract maintenance charges line in the Statements of Operations and Changes in Net Assets.

A contract maintenance charge of \$3.75 is assessed on each contract (except those relating to Potentia, Portfolio Director Freedom Advisor, Portfolio Director Plus, and series 2-8 and 10-12 of Portfolio Director, GUP and GTS- VA, contracts within the Impact product are assessed a \$30 annual maintenance charge and contracts within the Polaris Platinum Elite product are assessed a \$50 annual maintenance charge, which may be waived if the Polaris Platinum Elite contract value is \$75,000 or more) by VALIC on the last day of the calendar quarter in which VALIC receives the first purchase payment, and in quarterly installments thereafter during the accumulation period.

**Withdrawal Charge:** A withdrawal charge is applicable to certain contract withdrawals pursuant to the contract and is payable to VALIC. The withdrawal charges are included as part of the payments for contract benefits or terminations line in the Statements of Operations and Changes in Net Assets.

**SEPARATE ACCOUNT A**  
**THE VARIABLE ANNUITY LIFE INSURANCE COMPANY**

**NOTES TO FINANCIAL STATEMENTS (CONTINUED)**

**Separate Account Expense Reimbursements or Credits:** Certain of the Funds or their affiliates have an agreement with VALIC to pay VALIC for administrative and shareholder services provided to the underlying Fund. VALIC applied these payments to reduce its charges to the sub-account investing in that Fund. In addition, VALIC currently reimburses or credits certain sub-accounts a portion of VALIC's mortality and expense risk charges. Such crediting arrangements are voluntary and may be changed by VALIC at any time. The reimbursements are included on the reimbursements of expenses line of the Statements of Operations and Changes in Net Assets.

The expense reimbursements are credited at the annual rate of 0.25 percent.

**Sales and Administrative Charge:** Certain purchase payments to certain products are subject to a sales and administrative charge. The percentage rate charged is based on the amount of purchase payments received. These charges are included as part of the payments received from contract owners line in the Statements of Operations and Changes in Net Assets.

**Premium Tax Charge:** Certain states charge taxes on purchase payments up to a maximum of 3.50 percent. Some states assess premium taxes at the time of purchase payments, while some other states assess premium taxes when annuity payments begin or upon surrender. There are certain states that do not assess premium taxes. If the law of the state requires premium taxes to be paid when purchase payments are made, VALIC will deduct the tax from such payments prior to depositing the payments into the Separate Account. Otherwise, such tax will be deducted from the account value when annuity payments begin. Premium taxes are included as part of the payments received from contract owners line in the Statements of Operations and Changes in Net Assets.

**Guaranteed Minimum Withdrawal Benefit (GMWB) Charge:** The charges for the GMWB riders are assessed quarterly on all policies that have elected this option. The annualized charges by GMWB rider and by product are as follows:

| GMWB Rider                | Products               | Annualized GMWB Charge for Contracts Issued: |  |
|---------------------------|------------------------|--|--|
|                           |                        | Before October 9, 2017                       | On or After October 9, 2017            |
| Polaris Income Builder    | Polaris Choice Elite   | 0.60% to 2.20% for one covered person        | 0.60% to 2.20% for one covered person  |
|                           | Polaris Platinum Elite | 0.60% to 2.70% for two covered persons       | 0.60% to 2.70% for two covered persons |
| Polaris Income Plus       | Polaris Choice Elite   | 0.60% to 2.20% for one covered person        | 0.60% to 2.50% for one covered person  |
|                           | Polaris Platinum Elite | 0.60% to 2.70% for two covered persons       | 0.60% to 2.50% for two covered persons |
| Polaris Income Plus Daily | Polaris Choice Elite   | 0.60% to 2.20% for one covered person        | 0.60% to 2.50% for one covered person  |
|                           | Polaris Platinum Elite | 0.60% to 2.70% for two covered persons       | 0.60% to 2.50% for two covered persons |
| IncomeLock (1)            | Portfolio Director     | 0.65% to 1.15% for one covered person        | Not applicable                         |
|                           | Equity Director        | Not available for two covered persons        |  |
| IncomeLock Plus (2)       | Portfolio Director     | 0.60% to 2.20% for one covered person        | Not applicable                         |

| Vanguard Wellington Fund Investor Shares                       | 358,635,409       | 1.62                              | 2.08    | 2,061,242,338                        | 2.02                                       | 0.00                                | 2.10    | 8.30                               | 10.60   |
| Vanguard Windsor II Fund Investor Shares                       | 305,318,371       | 2.29                              | 2.44    | 1,785,844,093                        | 1.27                                       | 0.65                                | 2.10    | 12.07                              | 13.71   |

- (a) Because the unit values are presented as a range of lowest to highest, based on the product grouping representing the minimum and maximum expense ratio amounts, some individual contract unit values are not within the ranges presented.
- (b) These amounts represent the net asset value before adjustments allocated to the contracts in payout period.
- (c) These amounts represent the dividends, excluding distributions of capital gains, received by the sub-account from the Funds, net of management fees assessed by the portfolio manager, divided by the average net assets. These ratios exclude those expenses, such as mortality and expense charges, that are assessed against contract owner accounts either through reductions in the unit values or the redemption of units. The recognition of investment income by the sub-account is affected by the timing of the declaration of dividends by the Funds in which the sub-account invests. The average net assets are calculated using the net asset balances at the beginning and end of the year. If there are no assets at either the beginning or end of the year, the asset balance of the first or last day the sub-account had assets is used.
- (d) These amounts represent the annualized contract expenses of the sub-account, consisting of distribution, mortality and expense charges, for each period indicated. The ratios include only those expenses that result in direct reduction to unit values. Charges made directly to contract owners account through the redemption of units and expenses of the Funds have been excluded. For additional information on charges and deductions, see Note 4.
- (e) These amounts represent the total return for the periods indicated, including changes in the value of the Funds, and expenses assessed through the reduction of unit values. These ratios do not include any expenses assessed through redemption of units. Investment options with a date notation indicate the effective date of that investment option in the variable account. The total return is calculated for each of the periods indicated or from the effective date through the end of the reporting period. Because the total return is presented as a range of minimum and maximum values, based on the product grouping representing the minimum and maximum expense ratios, some individual contract total returns are not within the ranges presented.
- (f) A blank in the lowest unit value, lowest expense ratio and lowest total return columns indicates that the lowest value is the same as the highest value.

**7. Subsequent Events**

Management considered Separate Accounts related events and transactions that occurred after the date of the Statement of Assets and Liabilities, but before the financial statements are issued to provide additional evidence relative to certain estimates or to identify matters that required additional disclosures. Management has evaluated events through the date the financial statements were issued.
